## 1. DESCRIPTION

FRAMMENTI ARGENTO is a water-based, clear and glossy protective finish enriched with silver metal fragments. Makes finishes waterproof, considerably increasing washability and resistance to stains and dirt in general.

## 2. USE

Suitable for application on the interior walls of bathrooms, kitchens or other settings that require protection from water, including direct contact.

FRAMMENTI ARGENTO, once dry, revitalises surfaces, giving a shiny appearance and a classic wet-look effect.

## 3. PREPARING THE SUBSTRATE

The surface on which it is to be applied must be clean, dry, adherent.

## 4. METHOD OF APPLICATION

FRAMMENTI ARGENTO is ready for use, only dilute when required.

The substrate must be **completely dry**; wait at least 24 hours after applying the product to be protected.

As it protects against water, if applied on surfaces that are still wet, it tends to whiten and its protective effect is diminished.

Apply as much of the product as possible and remove the excess. We recommend applying the product gently without vigorously rubbing.

If a milky appearance and sponge or brush strokes appear during application, these will disappear with the drying process.

On corners or other spots hard to reach, apply with a brush, especially along joints between different surfaces.

Wait 12 hours between coats. For better protection, we recommend applying multiple coats of the product. Once done, seal the edges in contact with other surfaces (shower trays, taps, kitchen countertops) with suitable silicone, to avoid water stagnating, which would result in the formation of haloes or crazing.

## 5. CLEANING THE TOOLS

Clean FRAMMENTI ARGENTO off tools by rinsing with water.

## 6. CLEANING THE FINISHED PRODUCT

Clean with LATTE DETERGENTE (50 ml LATTE DETERGENTE in 1 litre of water).

## 7. SAFETY RECOMMENDATIONS AND RISK IDENTIFICATION.

The product does not require labelling according to current regulations. Use and store according to current health and safety regulations; after use, do not dispose of containers to the environment; let residue dry thoroughly and handle as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label. Do not empty into drains, waterways or soil.
